PROFESSIONAL SUMMARY

I am a Data Scientist with 7+ years of combined academic research and industry experience developing AI and machine learning solutions that solve complex business problems and drive measurable outcomes. My expertise spans statistical process control, generative AI, deep learning, and statistical modeling, with a proven track record of delivering production-ready solutions for clients. I have published 14 peer-reviewed papers, presented at 10+ national conferences, and been elected to national leadership roles. I bring a consulting mindset: I translate ambiguous business questions into practical analytical recommendations and deliver executive-ready insights that guide decision-making.

EDUCATION

Kennesaw State University <i>Ph.D. in Data Science and Analytics</i>	Atlanta, GA <i>Expected July 2026</i>
Kennesaw State University <i>M.S. in Data Science and Analytics</i>	Atlanta, GA <i>2024</i>
Kwara State University <i>M.Sc. in Mathematics</i>	Malete, Nigeria <i>2022</i>
Federal University of Technology <i>B.Tech. in Mathematics</i>	Minna, Nigeria <i>2019</i>

INDUSTRY RESEARCH PROJECTS

Credit Risk Prediction (Atlanticus Sponsored Project) <i>Data Scientist Consultant</i>	Atlanta, GA <i>Jan 2024 – May 2024</i>
- Analyzed 988,267 customer records to predict loan default risk using machine learning - Applied Random Forest (88% accuracy, 81% precision) and XGBoost - Addressed class imbalance using SMOTE; reduced feature space from 458 to 116 variables - Delivered executive-ready recommendations for targeted lending and default mitigation	
Customer Click Prediction (IHG Hotels & Resorts) <i>Data Scientist Consultant</i>	Atlanta, GA <i>Jan 2023 – May 2023</i>
- Predicted probability of customers clicking promo links in marketing emails - Engineered features including send time, subject line sentiment, and past engagement - Achieved 78% precision using Logistic Regression & XGBoost - Delivered actionable insights that optimized IHG's email campaign strategies	

AI & MACHINE LEARNING RESEARCH

Graduate Research Assistant — Process Evaluation & Improvement Lab <i>College of Computing and Software Engineering, KSU</i>	Kennesaw, GA <i>Jun 2024 – Present</i>
- Developed adaptive control charts for real-time multi-stream monitoring - Published csbewma R package on CRAN (Version 1.0.1, DOI: 10.32614/CRAN.package.csbewma) - Built end-to-end ML pipelines for health data analysis - Implemented multiple testing corrections (Bonferroni, Holm, Benjamini-Hochberg)	

NLP Research: Seq2Seq Text Summarization

Kennesaw, GA

Kennesaw State University

Fall 2024

- Designed LSTM-based encoder-decoder summarization model (3-layer encoder, 1-layer decoder)
- Built complete NLP pipeline: tokenization, embedding, BLEU, GLEU, and METEOR evaluation
- Processed 100,000+ news articles; trained on sequences up to 1,200 tokens with 85-word summaries
- **Tools:** TensorFlow, Keras, Python, NLTK

Transfer Learning: VGG16 Art Classification

Kennesaw, GA

Kennesaw State University

Fall 2023

- Fine-tuned VGG16 pre-trained on ImageNet for 11-class classification
- Experimented with dropout rates, batch normalization, and data augmentation
- Generated ROC curves and confusion matrices for performance evaluation
- **Tools:** TensorFlow, Keras, scikit-learn

Muritala F., & Callahan, C. "Maternal Diabetes Condition on Infant: Birth Weight, Length, and BMI." *Fall Analytics Day*, November 2024, KSU.

LEADERSHIP & PROFESSIONAL SERVICE

Program Chair Elect (2027), Statistical Programmers & Analysts Section

National

American Statistical Association (ASA)

2027 – 2029

- Elected to lead national program planning and committee coordination
- Advancing professional standards across the statistical community

Communications Officer, ASA Georgia Chapter

Atlanta, GA

American Statistical Association (Elected)

Feb 2026 – Present

- Supporting chapter-wide communication, member engagement, and professional outreach
- Disseminating professional opportunities across the Georgia statistical community

Session Chair

Systems and Infrastructure for Applied Data Science, SDSS 2026

Milwaukee, WI

Apr 2026

- Provided leadership in session coordination and scholarly discussion facilitation

PROFESSIONAL AFFILIATIONS

Member — American Statistical Association (ASA ID: 258914), 2023–Present

Member — INFORMS (ID: 1985098), 2025–Present

Member — Sigma Xi, The Scientific Research Honor Society (ID: 20259994601), 2025–Present

Member & Elected Officer (V.President) — The Kennesaw Society of Black Computing Professionals (KSBCP), 2024–Present

Member — Nigerian Mathematical Society (NMS/3/56889), 2021–Present

Member — CCSE 4.0 Club, Kennesaw State University

TECHNICAL SKILLS

Generative AI & LLM: Prompt Engineering, RAG, LLM Application Design, Model Evaluation, Grounding, Safety Guardrails

Deep Learning: LSTM, Seq2Seq, Attention Mechanisms, Transfer Learning (VGG16), CNN, PyTorch, TensorFlow, Keras

Machine Learning: Random Forest, XGBoost, KNN, Naïve Bayes, K-Means, PCA, Logistic Regression, SMOTE

Programming & Databases: Python, R, SAS, SQL, Git, LaTeX, Relational Databases

ML Libraries: scikit-learn, HuggingFace, LangChain, NLTK, Pandas, NumPy

BI & Visualization: Tableau, Matplotlib, Seaborn

AI Assistive Tools: Claude Code, GitHub Copilot (experience accelerating development velocity)

AWARDS & RECOGNITION

1st Place, IISE Innovative Design Competition — Institute of Industrial & Systems Engineers (2026)

Doctoral Endowed Scholarship — J. Stephen & Jennifer Lewis Priestley Scholarship (2024, 2025)

Student & Early Career Scholarship — Symposium on Data Science & Statistics (SDSS), ASA (2025)

Honourable Mention, 1st Place Ph.D. Research Award — CCSE Computing Showcase, KSU (2025)

Honourable Mention, 1st Place Ph.D. Poster Award — Spring Analytics Day, KSU (2025)

Honourable Mention, 2nd Place Graduate Poster Award — Symposium of Student Scholars, KSU (2025)

Honourable Mention, 1st Place Ph.D. Poster Award — Fall Analytics Day, KSU (2024)

Third Place Winner — Atlanticus Risk Assessment Competition (2024)
